أنا حينئذ خمسين عاماً (أحاولُ رسمَ بلادٍ تُسمى بِلادِ العربِ
مِسمتِ بِلونِ الشرايينِ حيناً وحيناً مِسمتِ بِلونِ الغضبِ
و حيناً وتُسميُ الرسمُ ، ساءلتُ نفسي :
إذا أُعلنوا ذِاتِ يومٍ وفاءَ العربِ ...

ففي رُبي مقبرهٌ يُدفنون؟ و هُنَّ سوفَ يبكي عليهم؟
وليسَ لديهم بنات... وليسَ لديهم بنون...
وليسَ هُنَاكَ حزنٌ وليسَ هُنَاكَ هُنَّ يحزنون!

أطفالُ بغدادِ الحزينَةِ يسألون
عن أُمِّي ذنبٌ يقتلون

يثرنحوناً على شظايا الجوع
يقتسمون خبز الموت ثم يودعون

I have stumbled upon the most extraordinary of places there are animals creatures with biomechanisms like nothing my ~~friends~~ friends and I have never witnessed. My colleagues or colleagues if you could, and I have not yet been able to learn the cause of these odd abnormalities but they are questioning the fact that something peculiar is happening in this little forgotten corner of the world. I have been recording what we have seen and leave it for whoever may find this as the government wants this quite hush. Just but science shouldn't be a secret.
Godspeed,
Doctor Penelope J. Apple

The light in the throat appears to be out of glass and riveted into flesh. The light seems to serve as a way to attract the very rare, tinny, pleasurable mother era.

The key mechanism appears to turn as the creature develops in its early development.

illumanus amphibialis

as legs form the mechanisms characteristics become more and more prominent
